This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

Regarding the antisense 3' primer sequences disclosed in the specification, page 71 (SEQ ID NO:12 and 13) said sequences are `properly disclosed in the sequence listing in the 5' to 3' direction. However, the sequence listing needs to disclose that said sequences is "antisense", because said sequence is a 5' to 3' representation of an antisense sequence. This information can be listed in the preJuly 1998 format (as per the instant sequence listing) in section (2) of the sequence listing (INFORMATION FOR SEQ. ID NO:) as depicted in the M.P.E.P. section 2424 (Rev. 3, July 1997, page 2400-29).

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 -1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTh statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached CRF Diskette Problem Report with the reply.
